

# SPINNER RACK (PART # 97000)

Tekonsha's new spinner display rack maximizes product availability while only using a minimal amount of floor space. The revolving spinners allow complete product viewing, provide easy access to all items and virtually eliminate product shuffling, a frequent problem on standard shelving units. Inventory can be checked in minutes and restocked in half the time. The spinner display rack is store tested to provide years of use in high traffic areas and can easily be transferred to any section of the store without having to remove product.

### Spinner Rack Specs:

- 22 inches in diameter
- 78 inches tall (including display sign)
- Durable steel construction with glossy black finish
- Adjustable spinner positions
- Equipped with leg leveling device, ball bearing assisted spinner rings – 4 large and 1 small, 1 catalog/brochure holder and 1 Tekonsha® sign
- Accessories\*: casters (in place of leg leveling device), small spinner rings, large spinner rings and bottom shelf rack
